

Responses to Suggestion Box Items May – September 2021: All suggestions are reviewed and sent to the appropriate director or department chair to follow up. Some of the suggestions and their responses are listed here.

Suggestions	Responses
<p>Hello. I'd like to suggest a way to ensure students preferred names and pronouns are used. I have been misnamed many times, in class and in email, even though my preferred name is a part of my legal name. I do not like to correct professors every time I am wrongly addressed, and just end up being misnamed repeatedly throughout my class. This does not make me feel good, and is fairly upsetting after the first few times. I am positive this is even worse for students with preferred names that reflect their correct gender identity. Thank you.</p>	<p>Thank you for your feedback. I will share your feedback with instructors. This is an area where we have had training recently and we can definitely improve.</p>
<p>Please encourage the Furturo Heath instructors to utilize Teams. Our class ask the instructors for help on there and often our questions go unanswered. Also, we have not had access to the Cengage instructional videos since the beginning of our program. We were told that Ms. Tia would help with setting up the videos for us and that never happened due to her continued absences. The only instructor that seemed to care was Ms. Sharla.</p>	<p>This feedback will be shared with the new department chair and we'll come up with a solution.</p>
<p>Something that seems to be a constant problem is how terrible the study guides are every week. Also a few of the assistants are very rude to all of the students for no reason but to have a power trip. They treat us all like children and have been trying to force work on us the teachers don't want us to do just because. I understand they are there to help but some have had the power go to their heads and act very rude.</p>	<p>This will also be shared with the department chair and faculty. Please contact your department chair or me (Teri Dillon tdillon@mtcollege.edu) if you feel that someone is being rude to you. We want to make sure that you have a positive learning experience.</p>
<p>In the beginning of the second MOD, some of material needed for quizzes was not learned until the week after. This was very problematic and it shows on my test scores personally. I would suggest a tweak of the assignment schedule for future students. Other than that, the course moves along nicely.</p>	<p>This is being reviewed.</p>
<p>I would say it would be nice if ALL of the instructors entered our grades into the computer in a timely matter.</p>	<p>I agree. Grades should be entered in a timely manner. If you feel that they aren't, please contact your department chair, or me (Teri Dillon tdillon@mtcollege.edu)</p>
<p>I think it's absolutely ridiculous that students can't access their grades at all time. Test grades are always missing, you never know your actual grade.</p>
