Classes should utilize small group discussions more often. As lectures and Socratic seminars aren't engaging for those who are on the shyer side. Also, to view engagement during small groups PowerPoints can be interactive if it is a virtual PowerPoint like Google slides.	Great suggestion! This will be passed on to all department chairs.
Would it be possible to include a seal or embossed graphic on diplomas and degrees earned?	Thank you for your suggestion. We are looking into it.
Can we have utensils in the lunchroom?	Please be sure to bring utensils if you are going to eat on campus. These aren't provided.
