What is the best way to provide information to you?

How do you feel about e-books?
- The biggest drawback from having e-books is that they expire, usually within a few months. Students would be more interested in having e-books if they didn’t expire.
- Some students really like a physical book.
- Some students wouldn’t mind e-books for some classes but not for their main textbooks, which they’d like to keep as references.

What could make your student experience better?
- Some students would like the flexibility to take their 2nd year classes during the day.
  MTI RESPONSE: Most 2nd year students work during the day. There aren’t enough to sustain a day program.
- A bus discount
  MTI RESPONSE: We are looking into this.
- Parking structure
  MTI RESPONSE: A parking structure isn’t feasible but we do have additional day parking at the church across the street. See Nicole, the student success coordinator, for more details.
- All day open lab with instructor/Night peer tutors
  MTI RESPONSE: Be sure to check out the lab schedule, as we have many scheduled labs. If these don’t work with you, contact your dean and we’ll work with you to find you the help you need.
- Replace water fountains with new fountain that fills water bottles with filtered water
  MTI RESPONSE: We are looking into this.
- More guest speakers
  MTI RESPONSE: We are looking into this.
